RESOLVED, that this synod memorialize the Evangelical Lutheran Church in America at its 2011 Churchwide Assembly to challenge all expressions of the ELCA to reduce their energy-related greenhouse gas emissions by at least 5 percent per year with the ultimate goal of reducing these emissions 25-40 percent by 2020, using as a benchmark for the reduction, the data from 2011, and to share this commitment and steps taken to achieve it in a public way in official publications and communication channels of this church.
